Purpose: The purpose of this proposal is to provide sustainable hunting opportunities for the 2019 season. The department needs to retain general hunting opportunities while maintaining the balance among user groups. Also, the proposal provides clarification to boundaries and an increase and/or reduction to recreational opportunities based on game animal population changes. Last, the proposal mitigates wildlife conflicts, while maintaining sustainable game animal populations across the state.

Change: Addition of “fully feathered” to clarify retention of head for Canada and cackling geese harvested in Goose Management Area 2 – Coast and Inland.

Rationale: Dusky Canada goose is closed to harvest. Measurement of the bill and feather coloration are required for subspecies verification.

WAC 220-413-180 Special closures and firearm restrictions.

WAC 220-414-080 Hunting – Hunter orange clothing requirements.

No recommended adjustments for this WAC.

WAC 220-415-020 2018-2020 Deer general seasons.

Change: Under modern firearm deer seasons, disabled and youth general seasons, change the legal deer for GMUs 101 – 121 from any white-tailed deer to any white-tailed buck.

Rationale: This change eliminates antlerless, white-tailed deer opportunity during the disabled and youth general seasons in GMUs 101 – 121 in response to increasing public concern about the white-tailed deer population in those GMUs.

Change: Under archery deer seasons, early archery general deer seasons, Eastern Washington white-tailed deer, change the legal deer for GMUs 101 – 121 from any white-tailed deer to any white-tailed buck.

Rationale: This change eliminates antlerless, white-tailed deer opportunity during the early archery general deer seasons in GMUs 101 – 121 in response to increasing public concern about the white-tailed deer population in those GMUs.

Change: Under archery deer seasons, late archery general deer seasons, Eastern Washington white-tailed deer, change the legal deer for GMU 101 from any white-tailed deer to any white-tailed buck.

Rationale: This change eliminates antlerless, white-tailed deer opportunity during the late archery general deer seasons in GMU 101 in response to increasing public concern about the white-tailed deer population in that GMU.

Change: Under archery deer seasons, late archery general deer seasons, Eastern Washington white-tailed deer, change the legal deer for GMUs 105 - 121 from any white-tailed deer to any white-tailed buck.

Rationale: This change eliminates antlerless, white-tailed deer opportunity during the late archery general deer seasons in GMUs 105 – 121 in response to increasing public concern about the white-tailed deer population in those GMUs.

Change: Under muzzleloader deer seasons, early muzzleloader general deer seasons, Eastern Washington white-tailed deer, change the legal deer for GMUs 101 – 121 from any white-tailed deer to any white-tailed buck.

Rationale: This change eliminates antlerless, white-tailed deer opportunity during the early muzzleloader general deer seasons in GMUs 101 – 121 in response to increasing public concern about the white-tailed deer population in those GMUs.

Change: Under muzzleloader deer seasons, late muzzleloader general deer seasons, Western Washington black-tailed deer, change the legal deer for GMU 654 from any deer to any buck.

Rationale: This change reverses the addition of antlerless opportunity during the late muzzle loader general season in GMU 654 that was proposed in the original filing. The initial proposal sought to provide additional opportunity for muzzleloaders to equate to opportunity for other user groups. Upon further review, harvest data in this GMU warrant a more conservative approach by maintaining the current “any buck” option for late muzzleloaders in this GMU.

WAC 220-415-030 Deer Special Permits.

Change: Under the quality category for Green River (GMU 485); change the season dates from Nov. 9-15 to Nov. 2-8.

Rationale: Season dates and permit number are negotiated annually with the Muckleshoot Indian Tribe and Tacoma Water. Proposed changes are a reflection of those negotiations, which consider managing hunter access, hunt quality, and management of the resource.

Change: Under the bucks category for Ritzville (GMU 284), modern; change the number of permits from seven (7) to nine (9).
Rationale: This change corrects an error in the initial filing, the changes originally submitted for inclusion in the initial filing to increase modern firearm, antlered special permit opportunity in GMU 284 were not added.

Change: Under the antlerless category for GMUs 101 – 121 to include Sherman, Kelly Hill, Douglas, Aladdin, Selkirk, 49 Degrees North, and Huckleberry; remove all antlerless permits.

Rationale: This change eliminates antlerless special permits for white-tailed deer in GMUs 101 – 121 in response to increasing public concern about the white-tailed deer population in those GMUs.

Change: Under the 2nd deer category for Colville River (Deer Area 1035), white-tailed, antlerless; remove all permits.

Rationale: This change eliminates second deer antlerless special permits for white-tailed deer in Deer Area 1035 in response to increasing public concern about the white-tailed deer population in GMUs 101 – 121.

Change: Under the Youth category for Green River (GMU 485); change the season dates from Nov. 9-15 to Nov. 2-8.

Rationale: Season dates and permit number are negotiated annually with the Muckleshoot Indian Tribe and Tacoma Water. Proposed changes are a reflection of those negotiations, which consider managing hunter access, hunt quality, and management of the resource.

Change: Under the senior 65+ category for GMUs 101-121 to include Sherman, Kelly Hill, Douglas, Aladdin, Selkirk, 49 Degrees North, and Huckleberry; remove all antlerless white-tailed deer permits.

Rationale: This change eliminates senior 65+ special permits for white-tailed deer in GMUs 101 – 121 in response to increasing public concern about the white-tailed deer population in those GMUs.

WAC 220-415-040 Elk area descriptions.

Change: For elk area no. 6054 Puyallup River (Pierce County); the south and southwest boundary of the elk area will follow the Nisqually River instead of State Route 706, Highway 7, and Alder Lake Park Road.

Rationale: We identified an issue where Alder Lake Park Road was also referred to by a different name on available road maps. This change avoids potential confusion regarding the boundary and simplifies the boundary description for hunters.

WAC 220-415-050 Elk general seasons and definitions.

Change: Under early archery general elk seasons for Eastern Washington in GMUs 328, 329, 336, 340, 352, 356, and 364; update the season dates under 2019 dates to be Sept. 14-19 and leave 2020 dates blank.

Rationale: Population surveys for the Yakima elk herd were completed recently and indicate that the population remains at levels similar to those observed in 2017 and is ~1,000 elk below objective. However, the number of cows in the population is near objective. In addition, harvest estimates for the 2018 season indicate the early archery season only accounted for ~60 of the 300-400 cows harvested in 2018. Collectively, this indicates the population should be able to sustain the level of cow harvest that occurs during the early archery season. That said, biologists are concerned about a delayed winter mortality event given the 2019 winter conditions and are cautious about committing to an early archery season in 2020.

Population surveys for the Colockum herd had not been completed at the time this document was prepared. However, given the Colockum herd was still within objective in 2018, biologists felt confident in offering this opportunity for the 2019 season and adjusting the recommendation in 2020 if pending survey results indicated a change was warranted.

Change: Under early archery general elk seasons for Western Washington; change the legal elk for GMU 663 from 3 pt. min. to 3 pt. min. or antlerless.

Rationale: The legal elk for all other general seasons including modern firearm is 3 pt. min or antlerless to address damage issues in the eastern portion of GMU 663. Changing the legal elk for the early archery season was inadvertently missed.

Change: Under early archery general elk seasons for Eastern Washington in GMUs 328, 329, 336, 340, 352, 356, and 364; update the season dates under the 2019 dates to be Sept. 14-19 and leave 2020 dates blank

Rationale: The Blue Mountains elk herd is below objective for the third straight year with lower than normal calk recruitment rates.

WAC 220-415-060 Elk special permits.

Change: Under the bulls category; update the legal hunt boundary for Alkali, muzzleloader (EM), to include GMU 334.

Rationale: We have expanded the legal boundary for several permits in the quality bull and bull categories to include GMU 334, and inadvertently missed this one.

Change: Under the hunters with disabilities category; update the legal hunt boundary for Alkali, (EF, EM, EA), to include GMU 334.

Rationale: We have expanded the legal boundary for several permits to include GMU 334, and inadvertently missed this one.

WAC 220-415-070 2019 Moose seasons, permit quotas, and areas.

No recommended adjustments for this WAC.

WAC 220-415-120 Bighorn sheep seasons and permit quotas.

Change: Reinstate Cleman Mountain B adult ewe only hunts (10 permits). Change the number of permits for Cleman Mountain C adult ewe only hunts from one (1) back to eight (8). Reinstate Cleman Mountain D adult ewe only (youth hunter) hunts (2 permits).

Rationale: The reduction in bighorn sheep ewe permits in the Cleman Mountain population in the original 2019 season proposals was premised on the department's ability to capture and translocate a number of animals out of state. Due to mild winter conditions, the department was unable to capture and translocate ewes this year, but the Cleman Mountain herd remains at a higher level than the department deems prudent and should be reduced. Thus, we propose offering the same number of bighorn ewe permits as in 2017.

Change: Suspend bighorn sheep permits for the Mt. Hull herd; one (1) ram permit, one (1) ewe permit, and one (1) ewe youth only permit.

Rationale: Pneumonia has recently been detected in this herd. We don't yet know the magnitude of mortality but the department recommends against issuing permits when the future of this herd is uncertain.

WAC 220-415-130 2019 Mountain goat seasons and permit quotas.

No recommended adjustments for this WAC.

WAC 220-416-060 2019-2020 Migratory waterfowl seasons and regulations.

Change: The addition of a Veterans and Active Military Personnel hunting date to occur February 1, 2020 for duck seasons.

Rationale: Under the John D. Dingell, Jr. Conservation, Management, and Recreation Act (S.47) signed March 12, 2019,

Change: The addition of a Veterans and Active Military Personnel hunting date to occur February 1, 2020 for duck seasons. And, change of special youth days for goose seasons to Sept. 21, 2019 and Feb. 1, 2020 in Western Washington, and Sept. 28, 2019 and Feb. 1, 2020 in Eastern Washington.

Rationale: No state may allow more than 107-days for any one migratory gamebird species. Washington State already maximizes these days by allowing a 105-day regular season and two youth hunting days. No additional youth days may be added, however, with the option of a special Veterans and Active Military Personnel hunting date, this allowed the opportunity to split the current Youth days to allow for both an early season and a later season opportunity, which allows more possible waterfowl species and hunting styles to be taught to youth waterfowl hunters.

Change: Possession limit description adjustments.

Rationale: Changes required to specify single-day bag limit possession limits for waterfowl species to be allowable during the new Feb. 1 Youth, Veterans and Active Military Personnel hunting day.
 Change: Addition of a Veterans and Active Military Personnel hunting date to occur February 1, 2020 for goose seasons.
 Rationale: Under the John D. Dingell, Jr. Conservation, Management, and Recreation Act (S.47) signed March 12, 2019, Subtitle E, Section 4001 amends Section 3 of 16 U.S. Code § 704 of the Migratory Bird Treaty Act to allow for the option of special hunting dates for Veterans (as defined by Section 101 of title 38, United States Code) and Active Military Personnel.
 Change: Date adjustments; daily bag limit adjustment for the Feb. 1 Youth, Veterans and Active Military Personnel Day; date adjustments to white goose season in GMA 1; and an addition of Feb. 1, 2020, as an allowable brant hunting date.
 Rationale: Changes required to allow the full potential waterfowl species list to be allowable during the new Feb. 1 Youth, Veterans and Active Military Personnel Day.
 Change: September goose seasons in Goose Management Area 2 – Coast and Inland changed to Sept. 7-15, 2019.
 Rationale: A traditional necessary shift to avoid conflict with Labor Day weekend activities.
 Change: Date adjustments to the third segment of goose seasons in Goose Management Area 2 – Coast to Feb. 8-22, 2020.
 Rationale: Changes required to minimize conflict between regular goose season in GMA 2- Coast and to allow the full potential waterfowl species list to be allowable during the new Feb. 1 Youth, Veterans and Active Military Personnel Day.
 Change: Adjustment to extended falconry season dates and allowable species.
 Rationale: Changes required to account for new Feb. 1 Youth, Veterans and Active Military Personnel hunting day.

WAC 220-416-110 Use of game birds for training dogs, field trials – Marking requirements.
 No recommended adjustments for this WAC.

WAC 220-430-010 Game farm license provisions.
 Change: Added language under sub-section (2) to clarify that a game farm license does not authorize the licensee to purchase, possess, propagate, sell or transfer deleterious exotic wildlife.
Game farms licensed on or after January 1, 1992, may purchase, possess, propagate, sell or transfer the following wildlife, except species designated as deleterious exotic wildlife: (((a))) Game birds - Pheasant, of the genus Phasianus; gray partridge of the genus Perdix; chukar of the genus Alectoris; quail of the genus Colinus, Callipepla, and Oreortyx; waterfowl of the family Anatidae.
 Rationale: This adjustment aligns WAC 220-430-010 with WAC 220-640-200 by providing consistency in treatment of deleterious exotic wildlife species (e.g. mute swan).

WAC 220-450-010 Criteria for planting aquatic plants and releasing wildlife.
 No recommended adjustments for this WAC.

^aApplicants must be eligible to purchase a youth bighorn sheep permit application. An adult 18 years of age or older must accompany the youth hunter during the hunt.

^bApplicants must possess a Disabled Hunter Permit.

^cA juvenile ram is defined as a male bighorn sheep having at least one "unbroomed" horn that does not extend past an imaginary line beginning at the point on the animal's forehead where the front of the horn base adjoins the skull, and continuing downwards and in a posterior direction through the posterior edge of the eye. A "broomed" horn is defined as a sheep horn that has been broken, splintered, frayed or rubbed in the wild, thus shortening its length and disrupting its natural taper.

(^dSee subsection (3) of this section Bighorn Sheep Units for detailed legal descriptions of these hunt area boundaries.)) This hunt contributes to a program designed to eliminate or greatly reduce prevalence of pneumonia in this herd. As such, hunters will be required to retain lungs and head for submission within ten calendar days to the Washington department of fish and wildlife regional or district office for veterinary sampling.

WAC 220-415-050 2018-2020 Elk general seasons and definitions.

It is unlawful to fail to comply with bag, possession, and season limits described below. A violation of this section is punishable under RCW 77.15.410 Unlawful hunting of big game—Penalty.

Bag Limit: One (1) elk per hunter during the license year, except where otherwise permitted by department rule. Any combination of seasons, tags, and permits set by the department will not exceed a maximum of two (2) elk per hunter during the license year.

Hunting Method: Elk hunters must select only one of the hunting methods: Modern firearm, archery, or muzzleloader.

Elk Tag Areas: Elk hunters must choose either Eastern or Western Washington to hunt in and buy the appropriate tag for that area.

Any Bull Elk Seasons: Open only to the taking of elk with visible antlers; bull calves are illegal.

Antler Point: To qualify as an antler point, the point must be at least one inch long, measured on the longest side.

Branch: A branch is defined as any projection off the main antler beam that is at least one inch long, measured on the longest side, and longer than it is wide.

Spike Bull Antler Restrictions: Bull elk taken in spike-only game management units (GMUs) must have at least one antler with no branches originating more than 4 inches above where the antler attaches to the skull.

Spike-only GMUs: 145-154, 162-186, 249, and 336-368.

True Spike - Bull Antler Restrictions: Neither antler of bull elk taken in GMUs 251, and 328-335 can have branching originating more than 4 inches above where the antlers attach to the skull. Under the true-spike restriction, taking an elk that has two points on one side or antler points within one inch of the definitions regarding length of point, or point of origination, is an infraction under RCW 77.15.160. All other types of violations of the true-spike restriction are subject to current penalties and assessments under RCW 77.15.410 and 77.15.420.

True-spike GMUs: 251, 328-335.

3-point Antler Restrictions: Legal bull elk must have at least 3 antler points on one side. Eye guards are antler points when they are at least one inch long. Antler restrictions apply to all hunters during any open season.

3-point GMUs: All of Western Washington, except for GMUs 448, 454, 564, 652 for archers, 666, 684, and Elk Area 4941.

Permit-only Units: The following GMUs are closed to elk hunting during general elk seasons: 157, 371, 418, 485, 522, 556, 621, 636, and 653.

GMUs Closed to Elk Hunting: 437 (except for Elk Area 4941) and 490.

Areas with Special Restrictions: There are modern firearm restrictions in GMU 334 and portions of GMU 660. GMU 554 is open only for early

archery and muzzleloader seasons. Elk Area 6064 in GMU 638 (Quinault) is open to master hunters only.
